WARM HOMES FIRST ORDERS OHIO BOARD

Public Utilities Commission Says Factories Must Stop When Gas is Short.

More than ordinary interest has been taken by Clarksburg manufacturers in an administrative order just issued by the Public Utilities Commission of Ohio, with regard to the supply of natural gas to industrial consumers and to those consumers of natural gas who, while classed as domestic, are not residence users. The idea of the commission is to protect the domestic users of natural gas wherever possible, owing to the growing scarcity of this fuel.

The administrative order of the commission, issued by Chairman Beecher W. Waterhouse and Commissioners Lawrence K. Langdon and Louis M. Day, is as follows: "The commission, having under consideration the furnishing of natural gas to consumers within Ohio and having, through its experts and examiners, made a careful investigation of the situation, taken the pressure in various parts of the state, examined conditions and ascertained that there is a shortage of gas in many localities of the state creating an emergency therein, finds that there is an insufficient supply of natural gas to furnish both domestic and industrial consumers.

The commission further finds that the schedules of the various companies to furnish said gas, on file with the commission show that industrial

consumers, or the "non-preferred class," are, for the most part, furnished service under what is known as a "Uniform Contract," which contract provides that their service is subject to discontinuance and disconnection at any time and under any circumstances, upon summary notice by the gas company, subject to the conditions of the "Uniform Contract," or clauses of like import. It is, therefore,

Ordered that each and every company furnishing natural gas to both domestic and industrial consumers within the state of Ohio proceed forthwith to a strict enforcement of the terms of said "Uniform Contract" and to enforce the conditions of said schedules by the discontinuance of said "non-preferred" or industrial class in each and every locality where the supply of gas is not adequate and sufficient to furnish a reasonable supply to both; and to continue such disconnection until such time as adequate service can be furnished to both. It is further

Ordered that each and every public utility furnishing natural gas as aforesaid in any locality, when after the discontinuance of industrial consumers, the supply is not adequate to supply domestic consumers, forthwith make report of such facts, together with a list of any and all other consumers not within the domestic class but not subject to summary discontinuance, for further order of the commission."

Celebrate Birthday.

The Kappa Sigma Pi, an inter-denominational organization of boys of Clarksburg, will celebrate a birthday on New Year's day, from 3 to 5 o'clock, keeping "open house" at its new reading rooms, corner Court and Mechanic streets.

Eighteen months ago this Pi chapter was organized with ten members, and has grown into a huge company of near 100 alert, active, young fellows, who are really trying to live up to the object of this Christian fraternal organization, which is, to seek the mutual improvement of the members, morally and socially, and to occupy the time in such exercise as will assist in the making of Christian men. And the object of the reading and amusement rooms is to help the boy avoid such habits and associations as would hinder him in developing a pure and manly character.
